

risk on mind® - We practice risk management with heart and soul!

As an established consulting company, we focus on operational risk management of industrial plants. With over 20 years of experience, more than 3,000 site inspections and related projects, our managing directors and consultants draw on extensive industry experience. To strengthen our consulting team, we are currently looking for:

Risk Management Consultant - focus on industrial plants m/f/d

Full-time

For our constantly growing location in 1010 Vienna, we are looking for an additional team member to advise our industrial clients in risk related matters. At the side of our risk management experts, we offer you the opportunity to further develop your existing expertise in order to be able to competently represent our company as a consultant in long-running projects.

Your tasks:

- Analysis of industrial plants and processes
- Moderation of workshops
- Accompanying our customers throughout the entire project life cycle
- Quantifying risk potential with the help of our in-house system
- Support in the development and implementation of control measures

Your profile:

- Completed technical education - preferably business informatics, mechanical engineering industrial engineering or similar education.
- Knowledge of risk management (risk management training or initial experience in risk management)
- Knowledge of process engineering or fire protection experience is an advantage
- Confident appearance and negotiation skills
- Good MS-Office skills
- Fluent in written and spoken English
- Driving license B
- Structured approach and willingness to learn
- Willingness to travel (between 30% and 50%)

Our offer:

- A crisis-proof job in a fast-growing company
- Representative office in the center of Vienna
- Home office option
- Company car with private use
- Further education and "training on the job"
- Familiar working atmosphere and flat hierarchies
- Working on an international level
- Working hours 40h / week

We offer a versatile and challenging job alongside many experts with a variety of opportunities for advancement and development. The monthly gross salary is 2.500€ - 3.500€ with the readiness for overpayment depending on your actual qualification.

Have we caught your interest? We are looking forward to your application!
